THE ONE WHO LISTENS.

Shrota means 'the one who listens'. The name is the artistic thesis: songs that leave enough room for people to recognise their own life inside them. Independent since 2023, Shrota blends Hindi hip-hop, melodic rap and unguarded writing - moving between romance, ambition, restlessness and self-doubt with feeling at the centre.

"I don't chase perfection in production. I chase honesty.
If a melody makes you feel something you've been holding back,
I've done my job."
